Subject RE: Marco Island Discharge [REDACTED]

Have these discharges been investigated? We have been receiving information that the discharges have continued in spite of the NOV issued. And when the NOV was issued, [Rony Joel] had asked to meet with DEP and expressed a belief that the City was in compliance with the permit. Has DEP reiterated or explained the requirement for NPDES discharges to Waters of the U.S. and met with the facility to explain that the discharge is required to cease? Please let me know what actions have been taken to address this situation and if an investigation was conducted yesterday as we discussed during our telephone conversation. Thanks.

Subject RE: Marco Island Discharge

Received both emails and forwarded them to our district office.  
we'll let you know what they find.
